

ASWIN RAJ

Python Developer | Django Developer | Software Engineer

Kochi, Kerala, India

8606362965 | aswinkannan4562@gmail.com | LinkedIn | GitHub | Portfolio

PROFESSIONAL SUMMARY

Highly motivated MCA student with strong skills in full-stack web development and backend system design. Proficient in Python, Django, JavaScript, and MySQL, with hands-on experience building scalable web applications and integrating machine learning models. Experienced in developing secure, user-friendly systems, implementing RESTful APIs, and optimizing application performance. Passionate about solving real-world problems through technology and continuously enhancing technical expertise.

TECHNICAL SKILLS

Languages: Python, Java, JavaScript, C

Frontend: HTML5, CSS3, Bootstrap, React.js

Backend: Django, Flask, Express.js, REST APIs

Database: MySQL, MongoDB, SQLite

Tools: Git, GitHub, Postman, VS Code

Concepts: Object-Oriented Programming, CRUD Operations, Authentication, JWT, API Integration, Debugging, Responsive Web Design

INTERNSHIP EXPERIENCE

MERN Stack Developer Intern

Jun 2025 – Jul 2025

Faith Infotech, Technopark, Trivandrum

- Worked on a Doctor Appointment Management System using MongoDB, Express.js, React.js, and Node.js.
- Developed REST APIs, implemented JWT authentication, and integrated frontend with backend modules.

Python Web Development Intern

Jan 2024 – Jul 2024

Besant Technologies, Bangalore

- Developed backend web applications using Python, Django, MySQL, and REST APIs.
- Built CRUD modules, integrated databases, and performed debugging and application testing.

Web Development Intern

Dec 2024

CodSoft (Virtual Internship)

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Improved front-end development skills through hands-on web development projects.

PROJECTS

GoldenInsights – Machine Learning Based Gold Price Prediction System

Dec 2025 – Feb 2026

- **Technologies:** Python, Django, Machine Learning, MySQL, HTML, CSS, JavaScript
- Developed a Django-based web application to predict future gold prices using historical market data.
- Implemented data preprocessing, feature engineering, model training, and prediction workflows using Python machine learning libraries.
- Designed a responsive user interface for data input and real-time prediction results.

EventEase – AI-Powered Event Management and Booking System

Jun 2025 – Sep 2025

- **Technologies:** Python (Django), MySQL, HTML, CSS, JavaScript, Bootstrap, AI Chatbot
- Developed a full-stack event booking platform with Admin and User modules.
- Implemented user authentication, event booking, payment tracking, and booking management features.
- Integrated an AI chatbot to assist users with event browsing and booking queries.
- Built responsive user interfaces and optimized backend logic using Django ORM and MySQL.

ImmunizeReminder – Vaccine Reminder System

Dec 2022 – Mar 2023

- **Technologies:** Python, Django, MySQL, HTML, CSS, JavaScript
- Developed a web application to help parents manage children's vaccination schedules.
- Implemented user registration, child profile management, and vaccination history tracking.
- Added automated reminder notifications and a vaccine calendar for upcoming doses.
- Designed dashboards for monitoring completed, pending, and upcoming vaccinations.

HouseFinder – Online House Rental System

Jan 2023 – May 2023

- **Technologies:** PHP, MySQL, HTML, CSS, JavaScript
- Developed an online platform for property listing and house rental management.
- Implemented property search, filtering, availability checking, and enquiry management features.
- Integrated MySQL database for secure storage of property and user information.

EDUCATION

Master of Computer Application (MCA)

Jun 2024 – Jun 2026

Mar Athanasios College For Advanced Studies, Tiruvalla
CGPA: 7.2

Bachelor of Computer Application (BCA)

Jun 2020 – Jun 2023

Saintgits College of Applied Science, Kottayam
CGPA: 6.21

CERTIFICATIONS

- MERN Stack Certification – Faith Infotech Technopark
- Web Development using Python django – Besant Technologies
- Oracle Cloud Infrastructure AI foundations – ORACLE

ADDITIONAL INFORMATION

- Strong problem-solving and debugging skills.
- Familiar with Agile methodologies.
- Excellent teamwork and adaptability.
- Strong verbal and written communication skills.
