Bachelor of Computer Application (BCA) Saintgits College of Applied Science, Kottayam CGPA: 6.21	Jun 2020 – Jun 2023
Higher Secondary – Computer Science SN TRUST HSS, Cheriyanad Percentage: 74%	Jun 2018 – Mar 2020
Secondary Education – CBSE Raja Rajeshwari Central School, Chengannur Percentage: 76.2%	Jun 2017 – Mar 2018

PROJECTS

GoldenInsights – ML-Based Future Gold Price Prediction Model	Dec 2025 – Feb 2026
Technologies: Python, Django, Machine Learning, MySQL, HTML, CSS, JavaScript. - Built a machine learning-based web application to predict future gold prices using historical data. - Developed the backend using Django and integrated MySQL for data storage and management. - Implemented data preprocessing, model training, and prediction logic using Python ML libraries. - Designed responsive frontend pages for user input and displaying prediction results.	
EventEase - AI-Powered Event Management & Booking System	Jun 2025 – Sep 2025
Technologies: HTML, CSS, JavaScript, Python (Django), MySQL, AI Chatbot. - Created reusable UI components and optimized backend queries with validation and error handling. - Integrated an AI chatbot to guide users through event browsing and booking. - Implemented secure event selection, payment tracking, and admin-level controls.	
ImmunizeReminder - Vaccine Reminder System	Dec 2022 – March 2023
- Built a platform for parents to track vaccination schedules and receive timely reminders via automated alerts. - Implemented user registration and child profile management for storing vaccine history - Added a vaccine calendar with upcoming due dates and color-coded indicators.. - Designed dashboards for quick viewing of completed, pending, and upcoming vaccines.	
HouseFinder - Online House Rental System	Jan 2023 – May 2023
Technologies: HTML, CSS, JavaScript, PHP, MySQL - Developed RESTful APIs and optimized SQLite queries. - Added features for property search, filters, availability checks, and inquiries.	

INTERNSHIP

MERN Stack Developer Intern – Faith Infotech – Technopark– Trivandrum

- Developed a Doctor Appointment Management System using MongoDB, Express.js, React.js, and Node.js.
- Implemented JWT-based authentication and role-based access for doctors and patients.
- Designed RESTful APIs for appointment booking, scheduling, and status tracking.
- Integrated frontend and backend modules ensuring secure and efficient data handling.

Python Web Development Intern – Besant Technologies— Bangalore

- Developed backend applications using Python and django.
- Implemented RESTful APIs and improved application performance.

CodSoft Web Development Intern

- Completed a 1-month virtual web development internship
- Gained foundational skills in HTML, CSS, and core web concepts.

KEY SKILLS

Programming Languages: Python, Java, C

Frameworks & Libraries: Django, Flask, React.js, Express.js, Bootstrap

Web Technologies: HTML5, CSS3, REST APIs, JWT Authentication

Databases: MySQL, MongoDB, SQLite

Developer Tools: Git, GitHub, Postman

CERTIFICATIONS

- MERN Stack Certification – Faith Infotech Technopark
- Web Development using Python django – Besant Technologies
- Oracle Cloud Infrastructure AI foundations – ORACLE

ADDITIONAL INFORMATION

- Strong problem-solving and debugging skills.
- Familiar with Agile methodologies.
- Excellent teamwork and adaptability.
- Strong verbal and written communication skills.
